DataPoints (Data)
histograms, data points
Function (Functions)
expected values, densities
CapGui, ClosureCalculator
(gui, Performance): comparisons
StatisticalTests
StatisticalTests (functions)
binomialTest(), poissonTest(), poissonComparisonTest()
gaussianTest() (z), gaussianComparisonTest()
studentTTest() (one or two samples), pairedStudentTTest()
chiSquareTest() (a value; observed and expected;
data and function), chiSquareIndependenceTest()
histogramCompatibilityTest(), kolmogorovSmirnovTest()
(a CDF or density; two samples; two histograms)
TestResult
statistic, degrees of
freedom, p-value,
estimate, number of
points
enum classes
Alternative: kTwoSided,
kLess, kGreater
HistogramComparison:
kCounts, kValues, kShapes
p-values
Distributions (functions)
regularizedGammaP(), regularizedGammaQ(), regularizedBeta()
normalDensity(), normalCdf(), normalUpper(), normalQuantile()
studentCdf(), studentUpper(), chiSquareCdf(), chiSquareUpper()
binomialProbability/Cdf/Upper(), poissonProbability/Cdf/Upper(),
kolmogorovUpper()
